Skills

Languages: c, c++, JavaScript, Java
Technologies: MERN Stack, NextJs, Spring Boot, Tailwind CSS
Databases: MySQL, MongoDB
Tools: Git, GitHub, Postman, Amazon Web Service
Core: Problem Solving, Data Structure, DBMS, OOPS, Operating System

Experience

Spark Infotech   Apr 2024 – July 2024
Software Engineer Intern   *Remote*

- Contributed to the development of **NeonatHealth**, **a healthcare product** designed to improve patient and doctor interactions and manage health data efficiently. Developed and maintained dynamic web applications using **Next.js**, enhancing user experiences with efficient **server-side rendering**.
- Collaborated with cross-functional teams to design and implement robust **MySQL databases**, optimizing data storage and retrieval for various applications.
- Also Integrated **WebView** to seamlessly convert web applications into direct app experiences.

Projects

SKILL ACADEMY | *React, Node.js, Express.js, Mongo-DB, AWS S3 bucket, Stripe*   🔗 GitHub

- Developed Skill Academy, an **online education learning platform**, integrating **S3 bucket for storage** and **Stripe for secure transactions**.
- Implemented features such as **automated email notifications, dynamic progress tracking**, and **analytics visualization** to enhance user engagement and satisfaction.
- Facilitated **course exploration, secure payment transactions, certification issuance, and personalized progress tracking**.

WheelzWay | *React, Spring-Boot, MySQL, Tailwind CSS*   🔗 GitHub

- Developed WheelzWay, a user-friendly web application facilitating **CAR RENTAL** processes for users and administrators. Enabled users to **search, reserve, and manage bookings** while administrators could **oversee car inventory, handle reservation requests, and manage bookings**.
- Incorporated key features such as **secure user authentication, flexible car management, and efficient reservation handling** to ensure a seamless user experience.

Education

2021-present	B.tech (IT Engineering) at **Dharmsinh Desai University**	(CPI: 7.73/10.0)
2021	Class 12th GSEB Board	(A Grades)
2019	Class 10th GSEB Board	(A Grades)

Achievements

- Successfully solved over **300+ problems** on LeetCode, demonstrating algorithmic problem-solving and coding skills.
- Recognized for excellence with the prestigious **"100+ Days in 2023"** award, bestowed to the **top 4.2% of LeetCoders**.
